

Chiesi USA Neonatology Textbook Program

We are honored to provide these texts to support the continuing education of the NICU team.

Jayashree Ramasethu, MD Suna Seo, MD

2020

MacDonal's Atlas of Procedures in Neonatology (6th Edition)

ISBN: 978-1-496394255

Neonatal intensive care demands sound decision making and rapid responses. By blending the illustrative power of an atlas with detailed, stepwise procedural descriptions, this practical resource covers a range of technique-specific interventions and prepares you for the challenges of the neonatal intensive care nursery. Now you can make sure you're staying fully up to date with current practice in the NICU by reviewing a plethora of new information across chapters, procedural content, and videos.

Eduardo Bancalari, MD

2018

The Newborn Lung: Neonatology Questions and Controversies (3rd Edition)

ISBN: 978-0-3235-4605-8

This reference provides information about controversial pulmonary challenges, tackling these subjects, and providing information on the latest diagnostic and treatment strategies using evidence-based medicine wherever possible.

Patricia R. Chess, MD

2019

Avery's Neonatal Board Review: Certification and Clinical Refresher (1st Edition)

ISBN: 978-032354932

This review tool follows the exam blueprint and is based on Avery's Diseases of the Newborn. Concise, relevant information is presented in a way that's easy to study and remember, giving the reader an important advantage on this challenging exam, as well as in the daily, fast-changing practice of neonatology.

eBook included, which allows for searching of all text, figures, and references from the book on a variety of devices.

Amy P. Holmes, PharmD

2016

NICU Primer for Pharmacists

ISBN: 978-1585284757

NICU Primer for Pharmacists, by Amy P. Holmes, is a unique comprehensive overview of pharmacological treatment and neonatal care that puts the information pharmacists, students, and residents need in one place, including strategies for selecting the optimal drug at the right dose within hours of recognizing a problem, detecting and correcting product dilutions, and overseeing dosing adjustments as patients mature, increase or lose body weight.

Martin Keszler, MD Gautham Suresh, MD Jay P. Goldsmith, MD

2022

**Goldsmith's Assisted Ventilation of the Neonate:
An Evidence-Based Approach to Newborn Respiratory Care (7th Edition)**

ISBN: 978-0323761772

A comprehensive, evidence-based guide to the rapidly evolving field of neonatal care. Provides updated guidance with a focus on evidence-based pharmacologic and technologic advances that improve outcomes and quality of life in newborns.

eBook included, which allows for searching of all text, figures, and references from the book on a variety of devices.

P.K. Rajiv, DCH, MD Satyan Lakshminrusimha, MD, FAAP Dharmapuri Vidyasagar, MD, FAACP, FCCM 2019

Essentials of Neonatal Ventilation

ISBN: 978-8131249987

An outstanding attempt to standardize bedside neonatal respiratory care by the most researched authentic experts in the world with a view of real-life progression of bedside ventilation practices.

eBook included, which allows for searching of all text, figures, and references from the book on a variety of devices.

Gary M. Weiner, MD, FAAP Christine M. Cooper, DNP, ARNP, NNP-BC, MBA

2025

Henry C. Lee, MD, FAAP

Textbook of Neonatal Resuscitation (9th Edition)

ISBN: 978-1-61002-857-8

This textbook provides updated newborn-resuscitation guidance based on the 2025 AHA/AAP recommendations. It features revised content, enhanced skills videos, and new lessons on congenital heart disease and NICU-based resuscitation, continuing to support high-quality training for all neonatal care settings.

Mary E. Coughlin, MS, NNP, RNC-E

2020

Transformative Nursing in the NICU (2nd Edition)

ISBN: 978-0-8261-5419-4

Focusing on trauma-informed, age-appropriate care, this new edition is substantially revised to offer the most up-to-date, evidence-based strategies for managing current and later-life trauma associated with the NICU experience. State-of-the-art developments are highlighted in five new chapters focusing on the evolving role of clinicians in the NICU. Use this book to learn about protocols proven to mitigate or reduce morbidities and other challenges afflicting neonates.

eBook included, which allows for searching of all text, figures, and references from the book on a variety of devices.

Tricia Lacy Gomella, MD Fabien G. Eyal, MD Fayezy Bany-Mohammed, MD, FAAP

2020

Gomella's Neonatology: Management, Procedures, On-Call Problems, Diseases, and Drugs (8th Edition)

ISBN: 978-1-259-64481-8

A true essential for nearly three decades, this streamlined reference provides logically organized, quickly retrievable information on basic and advanced management techniques for the neonate. Featuring a convenient outlined approach that puts key information at readers' fingertips, this quick reference covers everything clinicians need to know about on-call neonatal problems, procedures, diseases and disorders, and pharmacology.

Mary I. Enzman-Hines, APRN, PhD, CNS, CPNP, APHN-BC Brian S. Carter, MD, FAAP
Susan Niermeyer, MD, MPH, FAAP

2025

Merenstein & Gardner's Handbook of Neonatal Intensive Care (10th Edition)

ISBN: 9780323930666

The tenth edition of Merenstein & Gardner's Handbook of Neonatal Intensive Care is a full-color, evidence-based guide that emphasizes teamwork in caring for critically ill newborns, with updated practices and an expanded focus on family education and inclusivity.

Richard Polin, MD Mervin C. Yoder, MD

2020

Workbook in Practical Neonatology (6th Edition)

ISBN: 9780323624794

Using a highly effective, case-based approach, *Workbook in Practical Neonatology* puts neonatal evaluation, diagnosis, and treatment in a clinical context and tests your knowledge with questions and answers for each topic. You'll find authoritative guidance on the problems you're most likely to see in practice, including issues regarding resuscitation, mechanical ventilation, anemia, fluid therapy, and bronchopulmonary dysplasia. The 6th edition has been extensively revised, with new authors, rewritten content, improved figures and tables, and many new cases throughout.

Martin Kluckow Patrick McNanara

2024

Neonatology Questions and Controversies: Neonatal Hemodynamics (4th Edition)

ISBN: 9780323880732

From Dr. Richard Polin's trusted Neonatology Questions and Controversies series, the fully updated 4th edition of *Neonatal Hemodynamics* provides in-depth clinical overviews of hemodynamic conditions relevant for the neonatologist, offering guidance based on the most current understanding of underlying pathophysiology. This edition covers topics from basic cardiovascular physiology through advanced monitoring and hemodynamic assessment. With updates that included streamlined chapter organization and the integration of case studies and multiple graphs and radiographic images, this edition will help you handle difficult neonatal hemodynamic issues to provide optimal, evidence-based care to every patient.

Lindsay C. Johnston, MD, MEd Taylor Sawyer, DO, MBA, MEd

2025

Neonatal Airway Management

ISBN: 978-3-031-71945-5

This textbook offers an in-depth, modern overview of neonatal airway management, making it an essential resource for clinicians, educators, and researchers in neonatal care. It covers various aspects including patient care, clinical practices, and provider roles.

Order Form

At Chiesi USA, we strongly believe in supporting the continuing education efforts of neonatologists, fellows, respiratory therapists, nurses, and pharmacists. This program includes a selection of medical texts focused on neonatal lung development, neonatal diseases, and references for clinical pharmacists. Each member of the NICU team may select a maximum of one title per year in order to comply with aggregate spend limits.

How to Order:

1. Review the titles in this document
2. Complete the following form and be sure to include all required information, including the Health Care Provider's signature
3. Return the completed order form to your Chiesi Hospital Sales Specialist

To be completed by Healthcare Provider. Please print legibly or complete electronically (preferred).

*Name		*Degree (MD, DO, PharmD)
*Institution		*NPI or SLN
*Street Address		
*City	*State	*Zip Code
*Email	*Phone	
*Signature	*Date	

*Required Information
